EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ivar M Kaardal on November 21, 2003.

The application has been amended as follows:

Claim 15 line 8 has been amended by replacing "one cup" with --- approximately one and one eighth cups--- . Basis for this amendment is page eight line 16 of the specification.

The following is an examiner's statement of reasons for allowance: Applicant has overcome the art of record by amending the process of the invention whereby the dyeing composition is placed in the bleach compartment of the conventional washing machine, a process which is not taught by the art of record. Said process is not obvious because applicant is using the bleach port for a process which is considered opposite to the process for which said bleach port was intended, and in doing so, the bleach port itself becomes stained with black dye, and the user would have to clean the bleach port before using it to bleach a wash load of clothes.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
